Education

Drexel University, Philadelphia, PA

January 2010 – June 2013

College of Arts and Science; Bachelor of Science in Psychology

UPENN LPS Coding Full-Stack Bootcamp

February 2020 – August 2020

Business Experience

JP Morgan Chase, Mercer County, NJ

September

2016 – Current

Home Lending Advisor

Responsible for originating first mortgage and home equity loans in the Mercer County area. Partnered with multiple bank branches, realtors and community partners to drive loan production. Coached bankers on identifying client's needs and positioning lending solutions for bank clients. Strived to help first time buyers and customers with low to moderate income by hosting events, speaking at first time homebuyer seminars, and partnering with the Affordable Lending Relationship Manager for the North East region, as well as Community Reinvestment Community Officer for my region. Held monthly meetings with partners to discuss best practices around customers. Passionate about empowering buyers to achieve their dreams in underserved communities.

Teaching Experience

Littlebrook Elementary School, Princeton, NJ

September 2015 — June 2016

1-1 Teacher's Aid

Worked alongside teachers and school counselors to facilitate learning and create IEP plans for students on the autism spectrum. Adapted classroom activities and materials to assist student with meeting required objectives consistent with IEP. Communicated detailed notes and statistics on behaviors with family, health care practitioner, and school counselor. Attended meetings and education seminars for continuous learning.

Research Experience

Activision, Santa Monica, CA

March 2015 – April 2015

Junior User Researcher – temporary

Recruit and schedule participants through internal or external recruiting methods. Assist with the execution of user-tests, including setup, breakdown, game immersion, game review, intake/outtake of participants, recording/reporting of the participants' experiences, and other research-related activities. Provide summarized research results to the supervisor for discussion. Organize and maintain a participant database. Update client and study databases. Maintain game lab and equipment.

JBA Institute, Torrance, CA

August 2013 – May 2014

Behavioral Interventionist

Lead intervention sessions, record data on social behaviors, comprehension, and learning skills for children on the Autism Spectrum. Train new hires. Responsible for the direct intervention and assessment. Help parents understand and follow through with program changes.
